

In this webfolder You are welcome to open a seven page sample of my new e-book – a book revealing truths and bluntly squaring accounts with the upcoming climatic situation and our future prospects, but simultaneously offering big time opportunities for establishing a sustainable climate-energy balance by making profits on new markets based on knowledge-induced public demand for recycled fuels out of greenhouse gases.

First of all, You might want to read through the lucid three page book review to survey its scope. Needless to say, it is thorough work and takes a lot of time to write a book this far-reaching. So, in order to get the e-book out on the market within reasonable time (expected at least 200 pages pdf-size 21 x 29,7 cm), I would need to dedicate every hour from now on until it's ready for publishing.

Therefore I now invite You to sponsor this endeavour.

At a certain pledge, You will be offered to co-produce the book in ways that we agree upon depending on Your preferences and the pledge sum. Donors and sponsors (USD 200 or above), and co-producers will obtain a signed printed book copy along with the e-book. Donors and sponsors (USD 500 and above), and co-producers will obtain favors and publicity (in the book, web adverts, events, media coverage, etc), should You accept that.

You may prefer withholding a sponsorship etc until You see that others are joining, or prefer anonymity.

– Perfectly alright, just state Your interest over the email, and I will notify You of the proceedings. At some level of Your own choice You can then take the action intended.

In this venture there is also an upcoming website relaunch at Climateleaks.org (presently nothing but a previous campaign endeavour) offering good-will advertising opportunities, equities, and research software for leasing – thus primarily aiming at building a community of common people understanding what should be done and why – intending to show the world that WE ARE MANY who want change, for subsequent media coverage and lobbying of decision makers. Here, my NPO, NGO team needs funding for website relaunch and marketing.

Having read through the sample of my book, I think You will come to realize how well its proposal, founded on reason and trust in the future, will apply to You privately, and on business lines to the enterprise that You may represent.

Before making a decision, should You like to read excerpts from some other chapters, I would be happy to email them at a minor charge. You might also want to get a preview of the upcoming website – No problem. And would You have me send You an invoice, state Your details in an email. I will get back to You on any subject over the email within 12 hours.
